The classification shows that the Exposition will have fifteen departments, 144 groups and 867 classes.

Architectural Features.

Appropriate names for the architectural features of the Exposition will soon be selected by the Commission of Architects with the approval of Director of Works Isaac S Taylor. Mr Taylor says that he is ready to receive suggestions for titles from any person who desires to contribute to the artistic nomenclature of the Exposi ion. The only restriction is that the name must fit the environment; for instance, the name for the grand boulevard leading up to the Art Palace must be in atmospheric second with the style of the architecture of that court. Court of the Loggias is a title that has been suggested. Nearly all of the facades of the exhibit buildings fronting on the main avenue have loggies, which supplies the idea for the title. All of the facades are colonnaded and an architectural hint is the Court of the Colonnades. Director Taylor says that the gegraphical features of the site for which names can be used at once are: The elevation on which the Art Palace will stand, which for purposes of convenience has been designated by the press as

# **GEORGIA PROVIDES** FOR STATE EXHIBIT

General Assembly Passes Resolutions Constituting Board of World's Fair Commissioners.

President Francis of the Exposition company received a telegram last evening notifying him that the Legislature of Georgia had passed a resolution providing for a State exhibit at the World's Fair. The nessage was from W. G. Cooper, special epresentative of the Exposition before the Georgia Assembly. The sender stated that the bill had passed both houses of the Legislature unanimously.

The bill provides that "the Governor shall appoint one citizen from the State at large, who, with the Commissioner of Agriculture and the State Geologist, shall constitute a Board of Commissioners to have charge of the State's exhibit at the Louisiana Purchase Exposition." It is the duty of this board to meet at an early date and take board to meet at an early date and take proper steps to see that the agricultural products and other resources of the State are represented, it is also authorized to use the handsome museum at Atlanta as a part of the exhibit. It is empowered to raise funds by contribution or otherwise, and to take proper steps to have State buildings erected on the Exposition grounds.

The Governor is empowered to appoint two citizens from each congressional district "who shall co-operate with the commission in securing exhibits from their respective districts to the end that the re-

spective districts to the end that the resources and products of every part of the State shall be adequately represented. This Board of Commissioners will be required to report to the next General Assembly what progress has been made in securing an exhibit and what steps have been taken toward the erection of a State building, together with such other information as it may have, and will be expected to make recommendations as may be necessary to fully carry out the objects of the resolution." spective districts to the end that the

On the return voyage she fractured one of her limbs on shipboard, and when she arrived here she entered the Deaconess Hospital. She was a sufferer from chronic asthma, and this maindy is stated as the cause of her death.

John H. Boogher, who has looked after her legal interests for several years, was notified of her death, and made arrangements for her burial to-day, as she has no relatives except her grandchild. Mr. Boogher said that Mrs. Kravanger's estate is a considerable one, although he does not know its exact value. She was the owner of real estate in Fayette, Golden City and Parls. Mo., and in this city, and had deposits in several banks and trust companies here. She left no will, and the grandchild will be the sole heir.

Only Remedy Used in Hospitals

To Cure Nervous Prostration is

Nervous prostration kills more people in America every week than all the infectious diseases kill in a year .- Statistician of London Medical Journal.

Nervous prostration, taken in time, is absolutely, permanently cured by Paine's celery compound. There are thousands of physicians' statements to this effect. It is the only prepared remedy used in such cases in the hospitals.

HAVANA, Cuba, Nov. 17. - Mrs. Lola Montalvo, who was Miss Barton's assistant, and is now nurse of the Succoring Hospital in Guanabacoa and wife of Mr. R. J. Montalvo, Warden of the City Prison in Havana, has made this statement:

"Paine's celery compound has been used at the Guanabacoa Hospital as many as five years with great success. Many women were scarcely able to move; there were others with a very weak nervous system. A hundred instances could be given of our patients who have been completely cured by using this wonderful Paine's celery compound. One bottle cured a Miss Augustina Aguero, who had heart disease. She was old and her age was against her. Other medicines had failed. May the Lord bless those individuals who brought it before the market and the public."
